EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the Claims:

In claim 10, line 1, "claims" has been changed to -- claim --.

In claim 21, line 5, -- of -- has been inserted after "one".

The above changes to the claims have been made to correct informalities therein; the above claim changes were made in the Examiner's Amendment of September 14, 2006 but were inadvertently not incorporated into the current listing of claims.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

Applicant's Arguments (see the Remarks dated March 1, 2007, page 14, the last paragraph and the paragraph bridging onto page 15, and page 15, the second and third full paragraphs) that European Patent 909,897 does not teach or suggest a convergence device or a pulsation canceling device, that Applicant's Admitted Prior Art Figures 23-24 do not show a

pulsation canceling device nor an impact reducing device, that Fuji 6,336,788 does not disclose or suggest a pulsation canceling device, and that none of the prior art references teach or suggest the combination of the pulsation canceling device and impact reducing device and that the prior art references do not disclose any motivation to combine the impact reducing device of Fuji 6,336,788 and the pulsation canceling device of European Patent 909,897 with Applicant's Admitted Prior Art Figures 23-24 (see the Remarks dated March 1, 2007, page 15, the last two paragraphs) have been carefully considered and are persuasive. Further, the combination of references involves hindsight reasoning and selectively picking and choosing elements from the combination of references. Therefore, the rejection of claims 1-3, 6, 10-11, and 13 under 35 U.S.C. 103(a) as being unpatentable over Applicants' Admitted Prior Art Figures 23-24 in view of European Patent 909,897 and Fuji 6,336,788 is withdrawn, and the rejection of claims 14-15 and 21-22 under 35 U.S.C. 103(a) as being unpatentable over Applicants' Admitted Prior Art Figures 23-24 and European Patent 909,897 and Fuji 6,336,788 and Rollwage 6,527,507 is withdrawn.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
